Lines:

1. “*Please*, Daphne is probably humping Callian’s leg right now. He’s just ignoring her like a yapping yorkie.”
2. “She’s at home, working on her portfolio final. Only time I see her come out, she either has a paint brush in her mouth or refills for coffee. She hasn’t even touched her phone since then and I know that because she left it on the coffee table. I’m pretty sure it’s dead. I wish I had that kind of focus.”
3. “You broke up with me, *remember?*”
